Sporadic but increasing RAM/KKE activity has been occurring in the Peloponnese. The main disturbances center in the triangle formed by a line drawn from Argos to Parnon to Kzviazta (probably Kalamata). The Government is sending more troops to the area, and the EAM/KKE groups are

now using morters. To permit a further check of EAN/KKE groups in labor organizations, the Government has promulgated a decree compelling the disclosure of names of members, executive officers, and funds in various treasuries.

The increase of EAM/KKE activity along the Turkish border, principally between Demotica and the south, is believed designed to offset the Government's claim of Slavic intervention in the Greek situation.

4. Tension in Athens and Piracus is increasing. More than twenty violent deaths in the past fortnight, mostly among left-wingers, have been caused by K-ites and by Vasilofrones (monarchists) whose activities have become more overt following the Government's tacit rejection of conciliatory negotiations.
